- **Programming Languages:** Java (**Advanced**), JavaScript (**Advanced**), Python (**Intermediate**), C (**Intermediate**)
- **Frontend:** React.js, HTML5, CSS3, Responsive UI Design
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MongoDB, MySQL
- **Developer Tools:** Git, GitHub
- **Core Concepts:** Data Structures & Algorithms, OOPs, API Integration, Problem Solving

Projects

AshaPure – Smart Milk Delivery Platform

GitHub

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Architected and developed a **MERN-based milk delivery platform** supporting **700+ users** and **50+ vendors** with automated subscription and order management workflows.
- Engineered **JWT-based authentication** and **role-based access control (RBAC)**, strengthening application security and streamlining platform operations.

TableForge

GitHub

Tech Stack: Python, Streamlit, MySQL

- Developed a **database management web application** handling CRUD operations across **1,000+ records** through a spreadsheet-style administrative dashboard.
- Designed integrity constraints, improving **data consistency by 85%** and reducing manual entry errors by **70%**.

Certifications & Achievements

- **Data Structures & Algorithms (Java)** — Covered **DSA**, **recursion**, **trees**, and **complexity analysis** using Java. [Certificate](#)
- **Watch the Code National Level Hackathon** — Selected among **Top 25 finalist teams** at Tech Geeks, GEHU Haldwani for developing a database management platform under competitive time constraints.
- **Monthly Coding Series** — Secured **1st and 3rd positions** in university-level DSA competitions.

Activities & Interests

- Competitive chess player with **multiple university-level runner-up finishes**, strengthening analytical thinking and strategic decision-making abilities.
- Finance, budgeting, and market analysis enthusiast with recognition as **Best Budget Analyst** in Budget Lens.
